

# Small Engine Repair...

Repair your own equipment or start a business! This course, offered by Sustainable Environmental Education, is a cutting-edge 18-hour class instructed by industry professional, Dan Kato. Your presenter has a rich history unlike anyone in the industry. His family lawnmower repair business is instrumental in inventing a pro-lawnmower used in commercial and residential applications worldwide. In this course, you will be exposed to the 4-stroke engine. Carburetor adjustments, equipment maintenance, general repairs plus a look at the most recent information in exhaust regulations.

## ...Lawnmowers, Edgers...

- **Troubleshooting**
- **Tune-ups**
