

Sustainable Environmental Education is asking for your help!

*By Order of California Gov. Schwarzenegger;
20% Reduction in Water Use Statewide
Please, Help Us Get The Word Out!*

Sustainable Environmental Education (SEE) is asking for your help to volunteer your time with our Water Wise Landscape. Water reduction begins with each and every one of us. It's not about not using water, it's about strategic water placement and proper usage. Sustainable Environmental Education is proud to present our Water Wise Landscape designed to teach and educate on how to use our natural resource responsibly. We need your help in achieving our goals.

No experience is necessary! And, you'll learn along the way.

We are looking for people to help out at the following events:

July 11-31, 2008
Orange County Fair.

August 1-3, 2008
32nd. Annual Home Remodeling & Decorating Show.
Los Angeles Convention Center.

August 22-24, 2008
32nd. Annual Home Remodeling & Decorating Show.
Pasadena Convention Center.

Call Pam at 562-945-6469 to see how much you can help us with our Water Wise Landscape!

Thank you.

For more information visit SEEusOnline.org or SEYourCareer.org.

Reasons to Volunteer...

1. To learn something about yourself... or just to learn something!

2. To have fun!

Volunteer doing something you love, and it will be amazing!

3. Because you're passionate about a cause.

Volunteer and be involved in something you really care about!

4. To explore career possibilities.

Maybe you're heading to (or are already in) college or the 'work world'. By volunteering you can find out if you're interested in going into the environmental field. Experience is key!

5. It's time to get off the couch.

From the time you get home 'til the time you go to bed, you park yourself in front of the TV. Honestly. You know you're bored with it. Be productive for a change!!

6. Learn some new skills...and add them to your resume!

You can learn a ton from volunteering, and what a great way to add stuff to your resume for future jobs or college applications!

7. To fulfill graduation requirements.

Maybe you need to volunteer for 50 hours in order to graduate. Awesome! Get out there and volunteer your time (and who knows, maybe you'll do extra hours because it's so awesome!)

8. Make someone else's day.

Your extra little effort to help someone out can make a world of a difference.

9. Feel good about yourself!

Know that, after volunteering, you did something great. Be proud of yourself.

10. It's time to DO SOMETHING!

And, we at SEE really need your help.

SEE Our Mission...

Sustainable Environmental Education, Inc. (SEE) is a nonprofit 501(c) 3 organization whose mission is to unite and inspire higher performance through education, outreach, advocacy and the mutual exchange of ideas to better ones life.
